- In the first few minutes, you could briefly describe your submission summarizing why it was done, its significance, its benefit to society/social relevance and other details of your accomplishment.
- Continue by describing how you became interested in this project, how it evolved and how working on it has helped you develop your talents.
- Next, describe how your submission fits into the larger context of the field of study and describe the specific ideas/people/theories that influenced your work.
- Conclude your video with a brief description on how you think your work/talent could be applied/highlighted.

Please note there are two submission options for this video. Option one is uploading your video (via any accepted format) to YouTube and uploading the link to the online application. Option two is uploading a .wmv file that is no more than 75MB directly to the online application.*

*YouTube video upload instructions:
