

Covid-19 Statement

The Davidson Fellows Scholarship program recognizes that the COVID-19 pandemic has affected opportunities for students to pursue their projects/portfolios, whether at school, university lab, performance venue or at home. With this in mind, we have **extended the application deadline from February 10, 2021 to March 10, 2021, 11:59 p.m. Pacific Time.**

Additionally, we have added Covid-19 related questions to Attachment One – Process Essay. Please be candid so the judging panel knows your circumstances. We have also added a Covid-19 related question to the nominating form (sample nominating form is linked in Step 3 on this page) so your nominators will have a chance to discuss any effects the Covid-19 pandemic may have had on your project.

The Davidson Fellows program is aware that a lack of school/laboratory/performance venue access might change the type of projects/portfolios students submit – that's ok! If you had to shift your research from the lab to your home, or if you had a performance cancelled – tell us about it! We have had plenty of scholarship recipients who did their work from home, don't be discouraged!

Lastly, we will work with the judging panel to consider the circumstances of this extraordinary time in evaluating applications.

Don't hesitate to ask questions, we are happy to help!
